🟢 Beginner-Level LinkedIn Post (Portfolio Website):
🌐 My First Step into Web Development – Portfolio Project Completed!
I'm excited to share my beginner-level web development project that I built as part of my internship at ShadowFox – my very own developer portfolio website!

💻 Technologies used:
HTML, CSS, JavaScript
Responsive design using media queries
Minimal, professional UI with clean layout

🧠 Through this project, I learned the basics of structuring web pages, styling them for both desktop and mobile, and deploying my work for the world to see.

Github Repo link : <https://lnkd.in/guZUu3dv>

🔗 Preview my portfolio here:
In1 : <https://lnkd.in/gfpDynrN>
In2 : <https://lnkd.in/gp39QKq2>
In 3 : <https://lnkd.in/grh3zW6g>

This was a foundational project that helped me gain confidence and start building my developer identity. Big thanks to my mentors at ShadowFox for guiding me!

🟡 Intermediate-Level LinkedIn Post (eCommerce Website):
🛒 Built an eCommerce Website – Intermediate Web Dev Project!
Proud to share my intermediate-level web development project from my ShadowFox internship — a full-featured eCommerce website!

👛 Key Features:
Product display
hover effects, and responsive layout
Clean user experience across desktop and mobile

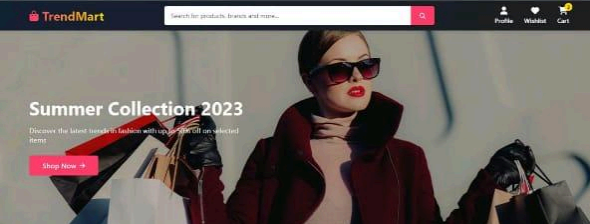

⚙️ Technologies used:
HTML, CSS, JavaScript
Manual styling for responsiveness

💻 Website Preview: <https://lnkd.in/guZUu3dv>

📸 Sneak peek:

This project helped me understand how to structure dynamic frontends, organize product listings, and improve UX design. Thanks to ShadowFox for mentoring me through this journey!
